SAN FRANCISCO LETTER.

[From Our Regular Correspondent.]

SAN FRANCISCO, June 25th, 1877.

EDITOR DEMOCRAT:—Since my last writing, San Francisco with its usual temerity has been trying to rival the interior by sending the thermometer up in the hundreds, but though it succeeded tolerably well for a novice, it had to succumb to superior location. Our summer breeze, which has been a thorn in the side to so many, deserted us entirely for a long time, probably with the view of making us appreciate its presence when it should return, and ninety-nine in the shade was the result. Ninety-nine degrees in the shade in San Francisco is no joke, for we have got in the habit of doing everything in such a high pressure manner, that we cannot shut off steam on account of weather.

Business generally is exceedingly dull, but there has been some excitement in stock circles, owing to the rapid advance in prices and subsequent fluctuations. Everybody who has any money is anxious to get a few shares, and those who were the loudest a few weeks ago in deprecating stock gambling now seem afraid that the market will get away from them. There are mysterious hints of developments, but so far as I can learn they exist only on California street, and the appreciation in value is merely the result of a concentration of stocks among a few, who will be sure to unload as soon as the public are enthused.

We are in the midst of a grand Theological discussion, Colonel Ingersoll having stung the ministers of the city to the quick by his bold and audacious statements. Dr. Guard last evening lectured to an immense audience at the Grand Opera House, in reply to the charge that the Bible is an immoral book. So far the parsons are ahead, with Ingersoll to be heard from.

We shall probably be treated to the details of a first-class scandal, concerning the members of the Low family. Charles L. Low recently died leaving the bulk of his property to his widow. Charles A. Low, a son by a former wife, has commenced a suit to have the probate of the will set aside on the ground that his step-mother, at the time of her marriage with his father had a husband living, and on the other ground that undue influence was used in procuring the execution of the will. Rumor has it that Mr. Low was indebted to his son for the handsome property he was able to bequeath to his widow, Charlie Junior having "staked" his father when he was penniless with about twenty thousand dollars, by which he was enabled to make a fortune of a million dollars in Crown Point Stock.

Some of the churches that have been overburdened by debt have succeeded in raising the amount of their mortgages (on paper) and we may expect to see substantial improvements projected, it being an absolute impossibility for the modern church to keep free from debt. There is always some ambitious spirit who will not let well enough alone, but must agitate until the place is enlarged or remodeled, no matter what the necessities are. The Bethany Church, a small place of worship in the suburbs, prompted by the success of its neighbors is about to rush headlong into an expenditure of fifteen thousand dollars, and doubtless others will follow.

We are preparing for the Fourth of July and Insurance men are trembling.

Dupont street having been widened is now ashamed of its name, and it is proposed to change it to Fleet Street, after Fleet F. Strother, Supervisor, and owner of property along the line of said street. If the change tickles Mr. Strother's vanity, I presume it is all right.

ANDERSON VALLEY ITEMS.

CHRISTNE, Mendocino Co., June 24.

EDITOR DEMOCRAT:—Times are lively in our little burg at present. Farmers are busily engaged in reaping the golden grain, that promises an average crop.

There is not as much grain raised here as in some other parts of the State. We might call it mostly a redwood forest. The redwoods grow here to a very large size, some of them measuring as high as seventeen feet in diameter.

There are people coming in here from all parts of the grasshopper regions, taking up claims and trying to make for themselves homes. They are putting a wagon road through from Booneville to Cufey's Cove This will be the nearest route to the coast market. People hereabout are having a nice time going to the coast after blackberries. A party of ten went from our burg last week, of whom your correspondent was one. Stayed two nights and got about twenty-five gallons. On our return we stopped at the soda spring which is boiling out of a rock close by the roadside in a beautiful redwood forest. All were delighted with the trip and think of repeating it after harvest.

Mr. Eldridge expects to visit Woodland next week.

Last week was a very warm and sultry time the mercury ranging from 100 to 112, it being the first warm weather we have had in this valley. This week it is nice and cool again.

Last Friday Edson Price was climbing a tree to burn a wood rat's nest about fifteen feet from the ground when one of the branches gave away and he fell and put one of his wrists out of joint.

Yours respectfully, MARRION.

A Draw on the Bank.

Hear the Colusa *Sun* tell how a crazy fellow attempted to help himself to funds and how he was thwarted: "Last Wednesday, Claus Ahlf, an industrious, sober and saving German, who resides on the east side of the river, and who has accumulated some means, went into the Colusa County Bank, and said he wanted some money, and stated $1,300 as the amount he would like to have. Mr. Harrington was about to question him as to time, etc., when Ahlf remarked that he would just take what money he had, as it was all his, anyhow. Seeing that he was out of his mind, Mr. Harrington stepped out for an officer. Ahlf then started to go behind the counter to take the money, when Mr. Copperthwaite stuck a pistol in his face, which brought Ahlf to conclude that it was not best to claim the money at that time. Constable Brasfield took him in charge, but his friends got him off home. He thought he had been much wronged, and that the building and all the money in the Bank belonged to him. Supervisor Kopf, who has been managing Ahlf's money for him, had been dangerously sick for the few days preceding this episode, and it is supposed that he got to thinking about his money matters in that connection, until his mind got a little off the track. As he is a good citizen, it is to be hoped he will come all right.

To Obtain Æolian Music.

To those of our young readers who would try the experiment of an Æolian harp, we suggest the following simple plan: Between the upper and lower window sash there is usually a small space; if not, drive thin wooden wedges so as to leave a clear opening for the passage of air. Across this draw a fine double and twisted silk thread, well waxed. The string must pass midway along the space, without any obstruction to the vibration of the cord. The constant passage of air will produce perpetual music of sweetest strain, to be heard distinctly in the room. Several windows thus provided will give very delightful and delicate notes of music.

A Terrible Tragedy.

The San Jose *Mercury* of June 21st contains the following account by a Gilroy correspondent, of one of the most fiendish murders that has ever come to our notice:

A fearful tradegy was perpetrated on the San Joaquin, about fifteen miles from Los Baños, on the 18th instant. On the 17th instant a sheep herder who had formerly worked for Mr. Eracs, stopped at the ranch and got his supper and lodging. Next morning he started out on his tramp, but shortly returned and told Mrs. Eracs that there were about sixty or seventy head of their sheep in the next canyon, and he had sprained his ankle and could not drive them in. The story looked feasible, as Mr. Eracs had started with his band of sheep for the Sierra Nevadas, and it was supposed they were some that had broken from the band. Mr. Eracs' oldest son, about 14 years old, and her sister started for the sheep. They had been gone but a little while when the fiend commenced his devilitry. He shot the mother and son, a lad about 8 years old, and then stabbed the little daughter, 4 years old. Not satisfied with shooting the mother and son he stabbed them also after they were dead. A man named Smith heard the shooting and was at the hourse in about ten or fifteen minutes afterwards. The doors were all closed and he saw blood oozing from under the back door. He broke the door in, and the ghastly sight of a murdered mother and son lay before him. The little daughter was not quite dead, and told Smith that Joe had killed her poor mamma and brother and had hurt her. Lustful violence it is presumed was the cause of the crime. Up to date of writing the miscreant has not been captured. He is well known in this section. "French Joe" is the name he travels by. He is about five feet three and a half or four inches in height, sandy complexion, average mustache, no whiskers or beard, has a cast in, I believe, the left eye; weighs about 145 or 150 pounds and is slightly pigeon-toed in the right foot. It is to be hoped the wretch may be captured and a short shrift and a long rope meted out to him by lightning.

The Loss of a Wife.

In comparison with the loss of a wife all other bereavements are trifling. The wife who fills so large a space in the domestic heaven; she who busied herself so unweariedly for the precious ones around her; bitter is the tear which falls on her cold clay. You stand beside her coffin and think of the past. It seems an amber-colored pathway, where the sun shone upon beautiful flowers, or the stars hung glittering overhead. Pain would the soul dinger there. No thorns are remembered save those your hands have unwillingly planted. Her noble, tender heart lies open to your inmost sight. You think of her now as all gentleness, all purity, all beauty. But she is dead. The head laid upon a pillow of clay. The hands that have ministered so untiringly are folded beneath the gloomy portal. The heart whose every beat measured an eternity of love lies under your feet. The flowers she bent over with smiles, bend now over her with tears, shaking the dew from their petals, that the verdure around her may be kept green and beautiful. There is no white arm over your shoulder, no speaking face looks up into the eye of love, no trembling lips to murmer, "Oh, it is too sad!" There is so strange a hush in every room; no light footsteps passing around; no smile to greet you at nightfall. And the old clock ticks and strikes—it was such music when she could hear it. Now it seems to knell on the hours through which you watched the shadow of death gathering on her sweet face. And every day the clock repeats the old story. Many another tale it telleth, too—of beautiful words and deeds that are registered above that the grave cannot keep her—that she will live again.

Bombardment of Acapulco.

The Pacific Mail steamship Colima, which has arrived at San Francisco from Panama, brings additional intelligence concerning the fighting by land and water at Acapulco. A letter received by the agents of the Pacific Mail Company gives the following particulars:

On the morning of May 27th Alvarez's troops attacked this town, and after a half-hour's heavy firing, Jiminez's forces, then in possession, stubbornly resisted, but being compelled to retreat ran into Fort San Diego and locked themselves up, and continued their fire with cannon and rifles into the town, where Alvarez's troops had formed.

The Mexican gunboat Mexico, then anchored in the harbor, also commenced firing on the town, and destroying with her shells a few houses and killing some defenseless people. The American Consul interposed, and made such representations to the Mexican commanders as to cause a cessation of the shelling for that day. The next morning, the 28th of May, the firing was renewed with greater vigor than ever. The Consul and merchants again interceded to save the town and prevent the slaughter of innocent people, and after three days' negotiation succeeded in arranging for a cessation of hostilities until the Government should agree upon terms of settlement.

Information derived from other sources is to the effect that Alvarez has surrendered the town to the commander of the gunboat, and that the soldiers of the Diaz and Ledro factions are strolling and rioting through the city arm in arm.

Drying Eggs.

Says the Providence *Journal:* One of the lately developed industries of this country is the drying of eggs. A large establishment for this purpose is in operation in St. Louis, which dries many hundred thousand a day. The eggs are broken by machinery, their contents stirred together and exposed to the heat. Specimens of this dried food have been sent twice across the equator, and neither heat nor sea voyage injured it. Omelets made from it, after its long voyage, were as good as those made from fresh eggs. Clearly the hens will have to redouble their diligence to meet this new demand. No business that women can undertake pays better than the raising of eggs and poultry, if conducted with shrewd business management.

Two Convicts Hue and Slash Each Other.

At San Quentin, on the 14th instant, a convict named Pete Hanley, engaged in an argument with John O'Brien, a fellow prisoner, concerning the moral character of a mutual acquaintance. They discovering that neither of them could injure the other's reputation materially, decided to settle the matter with knives. Both men procured knives and repairing to a secluded spot behind the new building, proceeded to fight it out. Hanley's injuries were comparatively slight. O'Brien's injuries were very severe, but he will probably recover.

Trotters From Russia.

Five horses of the famous Count Orloff breed, landed in Hoboken, New York, lately, are said by their owner, Lieut. von Ismailoff, to be as fast trotters as can be found in Russia. They are from stock whose fame has reached this country. All horsemen have heard of the Count Orloff breed, and these animals are some of the choicest of that stock. Lieut. von Ismailoff says that the famous Arabian stallion Smetanks is the progenitor of the breed.

LESSON OF THE SEASON.

The DEMOCRAT has heretofore adverted to the subject expressed in the above heading. Situated as we are in one of the principal agricultural counties of the State, the present season has taught a lesson which is not only understood but felt in all its force and bearing. In few words, that lesson is, that proper cultivation of the land will insure good crops every year in Yolo county, and that only in wet, or at least average rainy reasons, will the half-way style of farming so generally in vogue in this State pay the farmer for his time and seed. The S. F. *Evening Bulletin* referring to this subject June 26th said: "After this year's experience with summer-fallowed and winter-sown grain we presume but few farmers will continue the old practice of putting in wheat on land just turned over and without additional cultivation. The universal experience this year has been that the summer-fallowed wheat has made a comparatively good crop, while a good crop from winter-plowed land has been an exception. But this is not the only or most important lesson taught in grain raising by the present dry season. A few farmers in most every section of the State had tried the experiment of cross-plowing their summer-fallowed land before sowing. The result of this experiment was uniformly the same, and that from 25 to 50 per cent. was added to the yield by the cross-plowing. This we think a more important lesson just at this time than the general one taught by the summer-fallow with a single plowing. Farmers were satisfied that they were losing money each year by not plowing their land in the spring for the fall's seeding, and were preparing to adopt this plan of putting in their grain quite generally, but they had not learned the fact that a second plowing before sowing would add largely to their crop. This lesson comes just in time to enable them to make two improvements at once. In the Atlantic States, where winter wheat is still cultivated to a great extent, the best practice is to plow the land in the spring and follow the plow with the harrow immediately. Then in a month or six weeks, cross drag and then cross plow, and let the land lie till September, or time to sow. Then harrow again and plow the third time, and sow and drag in the grain. Some, however, sow the seed before plowing the third time, and plow in the seed. In this way the soil is thoroughly aired and pulverized, the weed seed is pretty thoroughly killed ont, and a good crop is almost certain. We must adopt the plan of putting more labor on our land and crop it only once in two years, instead of every year, or wheat raising will cease to be profitable, and our land will become comparatively barren."

ROMANTIC WAR NEWS.

The following bit of romantic war news has just come to hand, said to have been translated. It sounds very pretty at this distance: "The citizens of Bucharest lately enjoyed the surprise of seeing an entire brigade of Russian cavalry march through the suburbs of the city. Among them was a regiment of Hussars commanded by a Russian young lady, in full regimentals, and seated on a splendid courser. It was the Duchess Demidoff, daughter of the Brevet Colonel and owner, if you please, of the regiment, expending annually for the same no less than 10,000 roubles. By the exceeding fine appearance of the men, mostly blondes, classically regular features and fine athletic figures, the Cossacks of the Don made a peculiar impression on the spectators. Their music consisted of cymbals and flageolets, accompanied by a chorus of some thirty singers, singing melancholy airs."

INGERSOLL.

Fitzgerald's paper passes the following criticism upon him: Col. Ingersoll did not leave behind him any deposit of new thought. He gave us some old ideas in somewhat new and striking forms of expression. That was all. His bold and rude assault upon religion has made manifest two things: First, that there is a large class in California to whom his opinions are welcome; and second, that there is another large class to whom their religious hopes are dearer than life. This latter class seemed to have waked up to a fresh realization that their religion is of some positive value after all. The best thing for truth is a fair and open contest in the light of day.

JAPANESE AGRICULTURAL COLLEGE.

W. L. Clark, L. L. D., President of the Massachusetts Agricultural College, has just returned from Japan where he has spent nearly a year in establishing a Japanese Agricultural College after the American model. President Clark took out graduates of his College in Massachusetts to serve as teachers, and the instructions will be given in the English language. The Japanese are decidedly progressive, and this attention to the agricultural interests of the country is a significant omen. President Clark is now making a run through California, and will soon visit Woodland as the guest of Rev. Mr. Lanman, his brother-in-law.

A Russian division has succeeded in obtaining a firm footing at Turgate. At Turnu-Marguele there were so many wounded that the ambulances were full, and they had to come back afterwards for more. The Czar was present.

OFFICIAL PAPER OF YOLO COUNTY.

ASSESSING GROWING CROPS.

As a matter of great interest to this and every other agricultural community, we publish herewith a letter written by Hon. Creed Haymond to the Sacramento *Bee*, in which he takes the ground that "such assessments are not authorized by law, and are void." It seems strange that this discovery has not sooner been made. Following is Mr. Haymond's letter giving his views upon the matter, and which will be gladly hailed by our farmers particularly:

EDITORS BEE:—I see from resolutions adopted by the farmers in certain counties in this State that Assessors have been making separate assessments on "growing crops." I am satisfied that such assessments are not authorized by law, and are void. As the Code stood prior to the last session of the Legislature, it contained a virtual prohibition against such assessments. A bill was offered and passed in the Senate, amending section 3617, the section in which the prohibition was contained. The proposed amendment merely changed the section to make it conform to the decision of the Supreme Court in the mortgage tax cases. When the bill reached the Assembly the Committee on Ways and Means reported it back and recommended striking out that portion of the section which virtually prohibited the assessment of growing crops. The Assembly agreed to the recommendation, and the bill in that shape became a law. This action has been made the basis for separate assessments on growing crops, but it does not warrant it. Affirmative authorization is a necessity to a legal tax, and there is none. The County Assessor of Sacramento has made no such assessment. If the assessments upon growing crops made in other counties are carried into the assessment books and allowed to stand, the result must be either the payment of an unequal tax or a multiplicity of suits. In order to avoid either result, I suggest that the Assessors may at any time before they complete their respective assessment books, correct them in this respect, or, if they fail to do this, that the County Boards of Equalization may reduce each separate assessment of growing crops to a merely nominal sum. The county Boards have no power to strike the entire assessment from the list, but they have the power to reduce each assessment to a nominal sum. The former course was pursued by the Board of Supervisors in relation to the mortagage tax and held to be invalid. The same Board subsequently pursued the latter course and reduced the assessment to a nominal sum—if I remember rightly to one dollar in each case. This action was within the admitted jurisdiction of the Board and could not be assailed. If the various County Boards will pursue the same course in relation to separate assessments of growing crops all the difficulties will be justly solved. Respectfully yours,

CREED HAYMOND.

COMPARATIVE MORTALITY.

The question of the comparative mortality of the blacks and whites in the South, now that the former have their freedom, is one of interest to all, aside from any political bearing which it may have. From the health report of the city of Charleston we gather some information on the subject, which is given below, showing that the mortality among the blacks is two or three to one to that of the whites:

The population of the city of Charleston is 56,000—24,000 whites and 32,000 colored persons. As the colored persons outnumber the whites, of course the mortality tables embrace a greater number of the former than the latter; but the disproportion of deaths is strikingly greater than the disproportion in the population. Thus among the whites there were 668 deaths, and among the colored population 1,264 in 1876—or twice as many among the latter as among the former, though the colored population exceeds the white only one-third. In 1875 there were 624 deaths among the whites and 1,240 among the blacks—still about the same disproportion. In 1876 there were 27 deaths in the thousand among the whites and 42 among the blacks. The difference is still more strikingly exhibited in the infant mortality. About 44 per cent of all the deaths were of children under five years old, or 896; but of this number only 248 were white children and 658 colored—or nearly three of the latter to one of the former. These facts are not explained by the inability of the colored people to secure medical attendance, for medical attendance can be had by the poor, black and white alike, without cost, and there is probably no city in the United States where the colored population are in a more comfortable condition than Charleston. Moreover, the statistics in other cities wherever obtainable tell the same story. Thus the mortality in Nashville, Tenn., during May was 20 whites and 31 colored—the rate being 14 whites per thousand, and 37 colored persons per 1,000, or more than twice as many colored persons per thousand as whites.

MEXICAN VETERANS.

The Secretary gives us a brief account of the result of the meeting called for 2 o'clock P.M. on Saturday at the Craft House. Very promptly on time, the Veterans—consisting of some of our oldest and best citizens—met, in the parlor of mine host, Jacobs, of the Craft Hotel, himself a leading member of the Order. After a little preliminary skirmishing, speeches were interchanged by Messrs. Jacobs, Watkins and other members, the result of which was an organization with the Hon. Jason Watkins as President, Camillus Nelson as Vice-President, and Sam Ruland as Secretary.

Remarks made during the meeting created a strong feeling among the attending members of the Order, who wore their bronze medals and seemed very happy in the meeting of so many comrades. Mr. Jacobs, an old soldier and a gentleman of the first water, made genial, happy remarks and hospitable proffers, which will long linger in the memories of the Veterans present, and the outside comrades, to whom the proceedings of this organizing meeting will be duly reported. A full official report of the meeting will appear to-morrow.

THE DAILY DEMOCRAT.

The Napa *Daily Register* says "it is the purpose of the publishers to make their paper as valuable and interesting as the patronage of the public will warrant, and the more liberal support that is given us the better will be the paper that we shall give our readers." And that is the case with newspapers almost everywhere. If they are well sustained with legitimate patronage they immediately show it by corresponding improvement in one or more departments of the paper. The WOODLAND DAILY DEMOCRAT started June 1st. Its have now reached July 1st. Friends, we have had a month's acquanitance; you know whether you like us by this time, and whether we are worthy of your support. Favors in the way of patronage and anything in the way of news to help make our paper interesting, are respecfully solicited. So far we are well satisfied in the main, but there are a few here who have not yet advertised their business in the Daily, and who it seems to us ought to do so as a matter of reciprocity and to sustain an enterprise that is doing more than all besides to bring our town and county into notice. All are respectfully invited to start in with the second month. Bring on your ads, gentlemen. The WOODLAND DAILY DEMOCRAT is a fixed reality.

COMING ELECTIONS.

The first election to be held during the present year will be that of Kentucky, August 6th. A Governor and a Legisture are to be elected, and the Legislature will choose a United States Senator in place of Thomas McCreery, whose term expires in 1879. Vermont will vote for State officers September 4th. Maine will elect State officers September 10th; and it is possible that a secret warfare, if not an open one, between the Hayes and Blaine faction of the Radical party may bring about some strange developments. On Sept. 5th, California will elect a Governor and a Legislature. In 1875, Irwin (Democrat) was elected Governor by a majority of 435 over both Radical and Independent candidates. The Legislature to be elected will choose a United States Senator in place of Aaron A. Sargent (Radical), whose term expires in 1879. In the present Legislature the Democratic majority on joint ballot is 54. It is safe to say that a Democrat will succeed Sargent. The Iowa and Ohio elections occur October 9th. Both States elect State officers, and in Ohio the Legislature will choose a United States Senator in place of Stanley Matthews (successor to John Sherman), whose term expires in 1879. The November elections are those of Massachusetts, Mississippi, New York, Pennsylvania, Virginia and Wisconsin, all of which occur November 6th.

ANOTHER PROPOSED ROUTE.

The Lower Lake *Bulletin* suggests a route for the proposed railroad to connect the interior and coast counties, in addition to those already named, "to come up through Putah Cañon and Berryessa Valley, following the general course of Putah Creek to Coyote Valley, and from there making a point at Lower Lake; thence along the Southern margin of Clear Lake to Lakeport, and from there by Upper Lake into the immense timbered region towards Eel River." The writer adds: "A road upon this route is most direct, with lightest gradients, and can be most cheaply constructed. It will conveniently meet all the agricultural demands of the country, passing entirely through the timbered region of the country, and generally in close proximity to the varied mining interests, and unquestionably will be one of the best paying roads in the State."

THE LUMBER TRADE.

Few people not in the business have a reasonable idea, says the Sacramento *Bee*, of the extent of the lumber trade done through the Golden Gate. N. L. Drew, of this city, Vallejo and San Francisco, says that last year there were brought into the Bay of San Francisco 400,000,000 feet of lumber, worth $20 per M.; 650,000,000 laths, at $2 50 per M.; 150,000,000 shingles, at $2 per M. These sum up $8,700,000, and Mr. Drew thinks that this same trade for of this year will exceed that by twenty per cent. There is a large trade done by San Francisco with Central and South America, China and Australia — mainly redwood going to Australia and pine to the other places.

HAS FOUND IT OUT.

An Eastern cotemporary, the Charlotte, Mich., *Leader*, says: Now we understand it. Every time that Sam. Tilden says a word publicly the Republican falsifiers at Washington at once follow with a statement that a suit has been instituted to recover some income tax. This has been done a dozen times in a year, and yet every one of these stories are as base a falsification as ever was told. No such proceedings will ever go into the courts, and the sooner our friends stop being gulled by it, the better for all concerned.

IN PLACE OF MORTON.

The Indiana Democrats have settled upon Hon. Dan. W. Voorhees as a proper successor to Morton in the United States Senate. It is understood that Voorhees will take the field and make a thorough canvass of the State, inviting the genius of the bloody shirt to attend him. If any man is entitled to the glory of consigning such a political monster to the grave, certainly the office will be well bestowed upon the "tall Sycamore of the Wabash." Morhas been the country's night-mare, and it is time that relief came in some shape.

A Splendid Chance for Investment,

Town and County Matters

Catholic Fair.

The Catholic Fair recently held in this town was well attended and proved to be a success, but might have been better were it not for the lack of money on account of the dry season and the severe north winds, which prevented the crops being as prosperous as they otherwise would have been, thus discouraging many of the farmers throughout the county. Following is the list of tables and their results:

Fancy Table—Misses Barney, Ruth Largan and Tackney.....$107 00
Fancy Table—Mrs. G. St. Louis and Jennie St. Louis..... 108 00
Ice Cream—Mrs. Green and Miss Kincaid..... 81 75
Ice Cream—Miss Kincaid..... 25 00
Lemonade—Mr. Kincaide..... 12 50
Quilt—Mrs. Miller..... 81 00
Grab Bag—Mrs. E. Hornbein..... 43 20
Refreshments—Mrs. Amsbury and F. Green..... 30 00
Postoffice—Miss A. Kelley 21 00
Fish Pond—Misses C. Smith & Dinzler.. 30 70

The above are the full receipts, out of which some bills are yet to be paid, in connection with the tables. Father Largan desires to return his sincere thanks to the gentlemen of the Band, and the community in general for their kind patronage.

An Elopement and Its Consequences.

Quite an exciting episode occurred in our neighboring town of Langville on Wednesday last. It seems that a married woman of that village conceived a passion for Mr. H. Strobach's barkeeper, and leaving three small children in charge of their father, eloped on Tuesday with the aforesaid slinger of the ardents. Yesterday, the delinquent partner of Mr. B's domestic joys and sorrows returned, and as she marched down the street from the livery stable to her abandoned home, the population of the burg turned out to watch her in her progress. When she arrived on the premises she found her trunk and other personal traps lying in the yard, and on approaching her husband he with stern countenance pointed her to said articles and ordered her to leave, and let the home that had so long known her know her no more forever. Mrs. B., no doubt in sorrow, sat down on the porch of the little dwelling, and in that position she remained when our reporter left. How the affair will terminate we know not, but the sympathies of the community are decidedly with Mr. B. and his motherless children.

Woodland Library.

This institution is deservedly gaining popularity all the time. The ladies who have charge of it deserve much praise for the zeal with which they labor to make their Reading Room a pleasant and profitable place for all who desire to avail themselves of the opportunity to spend an hour or two in the evening. Besides the goodly number of books upon the shelves, the following papers—dailies, weeklies and monthlies—are constantly spread on their tables for the benefit of the public: Daily: San Francisco *Examiner*, *Chronicle* and *Mail*, Oakland *Evening Democrat* and *Tribune*, Marysville *Appeal*, Vallejo *Chronicle* and *Times*, Santa Rosa *Democrat*, San Diego *News*, Chico *Herald*, *S. F. Echo*, Napa *Daily Register*, Woodland *Daily* and *Weekly Democrat*, and *Yolo Mail*, Sacramento *Record-Union*, Arizona *Enterprise*, *Mexican Weekly*, *Official Organ of the National Currency Party in California*, and *Resources of California*—quite an array of reading, surely. The Library is well lighted and comfortably seated All are invited to avail themselves of the advantages it offers.

"Rebecca."

WOODLAND, June 28, 1877.

EDITOR DEMOCRAT:—Wonder if "Rebecca" was not mad because Mr. Jacobs charged her twenty-five cents for her dinner circus day. We correspondents expect the fair thing done by us when we condescend to stop at country hotels—we do. Hence Mr. Jacobs made two mistakes; first by not giving "Rebecca" her dinner, and second by noticing her twaddle at all. For fear, however, that I will be accused of devoting too much space to that nonsensical correspondence in the *Mail*, I will close by advising "Rebecca" to make good use of that tooth brush which she says is so necessary to her comfort and we think she will survive even Craft House meals eaten with a plated spoon, especially when they are furnished free. ROGER.

Rich Ore.

Mr. Grant, of Nevada county, a nephew of A. C. Kean, our County Treasurer, is in Woodland making his friends a visit. Mr. Grant is one of a company of miners who have made a very lucky strike lately, in the discovery of a very rich quartz ledge near Grass Valley, some specimens of which he exhibited to crowds of wondering spectators. The specimens are pure white quartz and apparently full one-fourth gold, clear, bright and beautiful. Many longing eyes looked on these rich specimens; but as for us we turned cooly away feeling happy in the contemplation that we had enough. The ledge referred to is only down about nine feet, and the owners of it feel sure there is a fortune in it.

Strange Occurence.

At precisely half-past eight o'clock last evening, Mr. Geo. Wiseman, one of the workmen in Jackson's planing mill, was sitting on his porch gazing intently at what he called the evening star—at any rate, it was the brightest star in the northwest—when all of a sudden the star shot out of sight, going almost straight downward but bearing a little to the north in its descent. Wiseman exclaimed to his wife in astonishment "the evening star has disappeared and the sky is dark in that direction!" He insists that the star had been shining steadily in the same position for some time before its sudden disappearance, and its rapid departure filled him with astonishment. Perhaps some of our astronomers can explain the strange phenomenon.

Accident to Supervisor Smith.

Information has reached here of a serious accident to Supervisor J. C. Smith, of Knights Landing. He was riding in his buggy near Weyand's Corners on Thursday, when from some cause unknown he fell out of the vehicle and was afterward found lying in the road in an insensible condition. It is not thought the horse ran away, as he arrived at his stable with the buggy all right—not a thing broken. The only suggestion we have heard as the cause is, that a wheel of the buggy probably went into a chuck-hole, threw Mr. Smith out, and that the fall made him unconscious. At last accounts he was lying at Weyand's in a critical condition, but we hope soon to hear a better account.

Birthday Party.

On the 28th of June the fifth anniversary of Miss Katie S. Bentley occurred, and at two o'clock a number of her young friends, ladies and gentlemen called to offer their congratulations, among them Misses Georgie Andrews, Carrie Reed, Dolly Welch, Flora Neff, Gertie Shryrock, Lena Bentley, Letha Reed, and Masters Eddie Lawson, Temple Reed, Artchmond Reed.

A real good time was enjoyed by the young people throughout the afternoon, and as evening approached the visitors departed, wishing Miss Bentley many happy returns of the day.

LETTER FROM WINTERS.

[From Our Regular Correspondent.]

EDITOR DAILY DEMOCRAT:—Our warehouses are now receiving from twenty to thirty tons of grain daily, which mostly goes in storage for the season, farmers being unwilling to sell at present prices. Owing to the scarcity of threshers, not one-half of the grain finds its way here for storage that would had we a sufficient amount of threshing force.

A lively competition is going on between the warehouses. Storage for the season has been reduced to forty and fifty cents per ton.

From 7 to 10 o'clock A.M. our streets present quite a lively appearance with vegetable and fruit wagons strung out in line taking their position in unloading their products for shipment on the cars to San Francisco.

An unusual number of our citizens are making ready and will soon be off to the springs and watering places. Then will be a good time for politicians and tramps.

We hear of some very provoking insults and threats to farmers' wives being made by men passing through the country while the husbands are absent. Yesterday one was followed by an enraged farmer and severely chastised with a black-snake whip.

A large number of shrew moles can be seen nearly every evening about dusk skipping over the earth like crickets.

Mr. Morris, manager of the Grangers' warehouse, who was recently in a critical situation from erysipelas in the hand, has so far recovered as to be at his post again.

I noticed in town yesterday J. D. Lawson, John Pendegast and M. W. DeWitt, all of Woodland. Mark would undoubtedly make a strong fight for joint Senator. No man to my knowing could poll the vote he can in this portion of Yolo and Solano counties, but to the sorrow of his friends he declines, to give place to others.

We hear it hinted that a few Democrats and Republicans of Woodland are trying to arrange matters so as to run their respective parties in their own behalf. [If such a thing be attempted, the men who do it should be spotted and beaten, whether Republicans or Democrats.—ED.]

One of our merchants holds the brace of dueling pistols with which Judge Terry killed Senator Brodrick seventeen years ago.

The following officers have been elected for the ensuing term of Winters Lodge, No. 243 I. O. O. F.: W. P. Bowen, N. G.; H. M. Hoard, U. G.; J. D. Gregory, Treasurer; Ed. Ferguson, Secretary. Respectfully,

ORLAND.

SOUTHERN CORRESPONDENCE.

SANTA PAULA, VENTURA CO., June 24th.

EDITOR DEMOCRAT:—I now propose to give you a short description of the place in which I expect to make my home. It is about sixteen miles from San Buena Ventura, in an easterly direction, and located right in the heart of the valley of the Santa Clara River, in Ventura county. This valley is about forty-five miles long and from one to twenty miles wide, averaging I should think about six miles in width. Here it is about three miles and widens toward the coast. At the lower end it is about twenty miles wide, taking in San Buena Ventura and Hueneme. Both of these towns are on the sea shore. San Buena Ventura is the county seat.

The climate here is very pleasant; it gets pretty warm during a part of the day sometimes, but not oppressively so. The highest the thermometer has been since I arrived here is 82°, and that only for one or two hours in the day. It averages about 65° to 70°. I have seen a lemon tree with blossoms on it and also lemons in all stages of growth and maturity, from the size of a marble to the full grown lemon of large size. Oranges, lemons and all kinds of semi-tropical fruits grow here to perfection.

Santa Paula is a small town, but has a good country around it and cannot help but grow. An immense quantity of honey is shipped from here every season, which of itself forms a considerable trade, and I think it will not be very long before we have a railroad. This valley extends to Newhall Station, on the Southern Pacific Railroad, and it is only thirty-five miles from here to that station. We now get the San Francisco papers the day after their publication. The coast line of stages pass here each way daily, so we have good mail facilities.

We had a free public entertainment here last night, consisting of music, singing, tableaux and charades, and I was surprised at the number present. I couldn't see where they came from. There must have been over three hundred people in the hall.

I expect to commence business the coming week. Yours truly, F. M. HALL.

Letter Direct from Idaho.

Mr. John Hollingsworth, of this city, received the following letter from his son J. Green Hollingsworth, now at the scene of the Indian war in Idaho. The writer and a younger brother have just arrived there with a band of horses from Woodland, and some apprehensions have been felt by their friends for their safety. The letter shows that they are all right.

WEISER RIVER, June 20th, 1877.

DEAR FATHER AND MOTHER:—I take this opportunity of writing to you. I got home yesterday. We are all well as I hope this will find you. We had a good trip with the exception of a few days. It rained on us for three days at Burney Valley and Fall River. The horses all stood the trip very well.

The Indians are up in arms in this country. They have killed twenty-nine men in the Salmon River country. Soldiers are after them now.

The settlers are building a fort on the Weiser to protect the women and children.

Soldiers have come from Fort Boise. The United States Marshal has armed us with needle gun with which to protect ourselves.

There is great excitement in the neighborhood. Can't tell what is coming next.

From your son in haste,

J. G. HOLLINGSWORTH.

I will write again and keep you posted.

MATTERS AT WINTERS.

WINTERS, June 27th, 1877.

EDITOR DAILY DEMOCRAT:—Our town has been unusually quiet during the past week.

Among the arrivals of yesterday and to-day the smiling and friendly faces of J. D. Lawson, W. M. DeWitt, Carey Barney and A. C. Kean, all of them prospecting the banner precinct of Yolo.

Our people are all well pleased with the workings of the Democratic Central Committee.

Harvesting is nearly through with in this section. Grain hauling has commenced. Nearly all of the farmers are storing their grain, storage being unusually low this season.

I have not much news to write this time.

It has been proven to the satisfaction of nearly all our citizens that Wagstaff is not a Missourian. Yours, DICK.

Pullman Palatial Hotel Cars.

These celebrated Hotel Cars are now running regularly between Chicago and Omaha, on the California Express Trains of the Chicago and North-Western Railway. West bound they leave Chicago daily, except Sunday, (and on every third Sunday) from the Wells street depot, at 10:30 A.M., and arrive at Omaha next morning, East bound. They leave the Transfer depot, opposite Omaha, at 5:15 P.M., daily except Saturday, (and every third Saturday) and reach Chicago the next afternoon. No other road west of Chicago runs these celebrated Pullman Hotel Cars, or any form of Hotel Cars.

Tweed Well Fixed.

In New York, June 22d, Secretary of State Bigelow, in defense of Mr. Fairchild's action in the case of Tweed, said that while the statement was under consideration, information reached the Attorney-General that Tweed had to his credit in Europe $2,000,000, and that he was only waiting to secure his discharge to rejoin his Confederates, to embark with them in large street railway speculations in Madrid.

Mexican Veterans.

Pursuant to a call made at the suggestion of Messrs. Watkins, Jacobs, Kirk, Hollingsworth and Ruland, there was a meeting of the Veterans of the Mexican War, at the Craft Hotel in Woodland, on Saturday, June 30th, 1877, at 2 o'clock P.M.

The Hon. Jason Watkins stated the object of the meeting, and comrade Jacobs, in a brief but fervid and hospitable speech, tendered to his fellow soldiers the courtisies and comforts of his fine hotel.

An election was held and officers elected as follows: President, Jason Watkins; Vice-President, Camillus Nelson; Treasurer, John Hollingsworth; Marshal, John Jacobs; Secretary, Sam. Ruland.

The following members constitute the First Roll; Hon. Jason Watkins, Camilus Nelson, Abram Barnes, John Hollingsworth, Vincent Barnes, Thomas D. Kirk, Second Missouri Cavalry; John Jacobs, Second United States Infantry; Simon H. Letner, Seventh United States Infantry; W. C. Thomas, Oregon Battallion; Wm. N. McClain, Warren Cashkieth, Twelfth Infantry; Edmond Hyman, Texas Rangers; Nicholas Schardin, Ordnance Department; John W. Tilly, Santa Fe Cavalry; Andrew McClary, Second Maryland Infantry; Sam. Ruland, First Missouri Infantry; Hon. John M. Kelley, Second Missouri Cavalry.

The By-Laws of the National Association were examined and temporarily adopted, and the following Committee on By-Laws was appointed: Jason Watkins, John Jacobs, A. S. House, John W. Tilly.

It was ordered that the Secretary, under the direction of the President, establish correspondence with the National and all kindred Associations.

Thanks were voted to comrade John Jacobs, of the Craft Hotel, for attentions and hospitalities shown the Association.

The Association then ordered that especial thanks be tendered to the Winters *Advocate*, Yolo *Mail* and THE YOLO DEMOCRAT, for the kind and efficient notices given in their several journals, and that these proceedings be officially certified to each of said papers.

After some desultory and humorous remarks the meeting adjourned till the second Thursday in September next.

JASON WATKINS, President,
SAM. RULAND, Sec'y.

New Omnibus.

On the occasion of bringing out the new Craft Hotel omnibus on Monday morning quite a display was made. The band was taken aboard and a turn taken through some of the principal streets in honor of the event. It is a 'bus to be proud of, one that we have never seen excelled in any city. Mr. Jacobs is deserving of great praise for having this fine and expensive vehicle made right here at home where it is to be used; and Messrs. Beach and Knox put forth an advertisement in it, as the product of their manufactory, that tells loudly in their favor as first-class mechanics. Everything about this vehicle is of the best—the style, material, workmanship, etc. Mr. Relyea did the trimming and Mr. Hoernlein the painting, both gentlemen being first-class mechanics. The painting, especially, bears evidence of being the work of a master artist. We examined the new omnibus from beginning to end and could find no fault about it. In appearance it is really handsome. It cost a round thousand dollars. Woodland ought to be proud of a house which furnishes such a 'bus, and also that it has an establishment managed by sufficiently skilled artisans to manufacture them.

Personal.

Mr. S. W. Dille, from Grass Valley, Cal., President of the Yuba River Mine, is paying our city a visit. Mr. Dille meets many of his old friends in Woodland, who are glad to see him and are only sorry to learn that his stay with them will be so short. Mr. Dille is regarded by his old friends as one of the best of men. He reports satisfactory progres at the Yuba River Mine, in which several of our citizens are heavily interested.

Official Raid on a Chinese Gambling House.

A raid was made by Constable Warmack, of Winters, upon a noted Chinese gambling house in that town on Friday night when six Chinamen were arrested and brought before Justice Hulse. The head one was fined $200 and the other five $100 each, one of the latter also having an extra $100 for resisting the officer.

Winters Items.

From the *Advocate* of June 30th, we obtain the following:

Mr. Weaver will commence a night school at the school house on Monday night.

The ladies of the Sunday Schools contemplate holding a festival on the 4th of July.

Fred. Henrich's slaughter house, recently destroyed by fire, has been rebuilt and is in operation again.

There will be a social dance at the Winters Hotel, by the proprietors, Messrs. Fleet & Bradford, on Tuesday evening July 3d.

New wheat has been shipped on the V. V. R. R. this week as follows: From Scott's station, 46 cars or 460 tons; from Winters, 3 cars or 30 tons.

A man named Flinn, who has been knocking about town for some days past, was taken to the County Hospital at Woodland, by Constable Warmack, yesterday.

The biggest shipment of fruit and vegetables for the season was on June 11th, from Vacaville, being seven carloads, or 75 tons; from Winters 3 carloads, or 35 tons, equal to about 6,500 boxes.

The marriage at the residence of the bride's parents in Berryessa, on the 21st inst., by Eld. Dunton, of Winters, of Norman Clark and Miss Annie M. Gallapsy, was attended by some one hundred of their friends and relatives. The bride was attended by three young lady bridesmaids, and the bridegroom by three groomsmen.

Terrible Destructive Storms Throughout the Northwest.

The Chicago *Times'* Columbus (Indiana) special July 1st says: A destructive storm passed over Johnson county last night. The house of Mr. Brunner was demolished, and the entire family, five in number, instantly killed. Immense numbers of cattle were killed, and crops nearly totally destroyed. So far as heard from 12 persons have been killed and 15 wounded.

A severe windstorm passed over Catesville, Pennsylvania, July 1st. At Ericildown the damage was very heavy. Twenty families were made homeless in a few minutes, their dwellings being razed to the ground. The fine new seminary was destroyed. From a Physician.

Hyde Park, Vt., Feb. 7, 1877.

Messrs. Seth W. Fowle & Sons, Boston.

Gents—You may perhaps remember that I wrote you several weeks ago in regard to the use of the "Peruvian Syrup" for my wife, who was suffering from general debility, the sequence of Typhoid Dysentery. I had tried the most noted physicians in this State, and also in Canada without relief. At your recommendation she commenced the use of the Syrup, the first four bottles made but little impression, but while taking the fifth she began to improve rapidly, and now, after using SIX of the dollar bottles, she has regained her strength and is able to do most of the work about the house; and I feel that I cannot speak too highly in praise of the "Peruvian Syrup." I have prescribed it to several of my patients, and have procured the sale of several dozen bottles of it here. You can make any use of this letter you see fit. Yours very truly, H. D. MELDEN, M. D.

A Card to the Public.

For many years we have made two medicines suited to the ailments of a vast class of sufferers. Thousands of cures have been made by them, and, in fact, the word failure could not be coupled with them. But within the last two years counterfeits of our medicines have sprung up, dangerous in their close imitation of our trade mark. To secure the people we have placed upon each genuine box of Holloway's Ointment the fac simile of the signature of our agent, Mr. Jos. Haydock. To counterfeit is felony. We shall relentlessly pursue any one who imitates this with the utmost vigor of the law. We most earnestly beg that the great mass of the American people will aid us in our efforts to protect their health, and help us in our task of bringing these most unprincipled men to the bar of justice. Uniformly refuse to purchase Medicines purporting to be ours unless Mr. Jos. Haydock's signature is attached to each box of Pills or pot of Ointment, and the end will soon be reached.

The Vallejo Broom Factory is now filling an order for 1,025 dozen brooms. It will not take so long to fill it as might be imagined, as the establishment makes 1,000 brooms a day. This Vallejo institution is the second largest broom factory in the United States.

On June 21st, a party of vigilantes, numbering 240, road into Mitchell, Indiana, and hung ten stuffed effigies with posters pinned to their clothes, notifying outlaws and incendiaries, that they would be held strictly and personally responsible for the destruction of property burned or otherwise maliciously destroyed.

The *Record-Union* of Saturday says that the body of Frederick F. Wheeler, son of Frank Wheeler, of Pioche, and grandson of J. M. Arnold, insurance agent of that city, who was accidentally drowned while bathing, was found on Friday floating in the river about half a mile below the Riverside House.

Mr. J. Rourke's Ames straw burner boiler blew up near Colusa, June 26th, at Geo. Ables' farm. Twenty-two men were at work around it and the engineer on top of it, but no one was hurt. The escape of all hands was almost miraculous. The stacks caught fire, but were put out without damage. Loss, about $1,200.

The enterprising people of Dixon are going to celebrate the Fourth in grand style. There will be a procession, an oration, reading, vocal and instrumental music, and a grand company of horribles in the afternoon. The Grand Marshal is E. E. Leake; Aids, Peter Timm, A. J. Kasten, Jas. Miller, Jos. McCune and Geo. Frahm.

The Napa *Register* says Terrill Grigsby, one of the leading wine-gsowers of Yountville has begun to build a celler for this years crop The dimensions of the cellar will be 58 by 112 feet, two stories high, with a garret capable of holding some 50,000 gallons of spirits. The capacity of the cellar will be 250,000 gallons, its cost $7,000.

The Marysville *Appeal* says: The Rev. Mr. McBride, of the Presbyterian Church, Colusa was committed on the 17th inst. to the Napa Insane Asylum. This gentleman has lately suffered from a severe illness of typhoid fever, which culminated in insanity. We understand, that insanity is hereditary in the family.

The *World* says: It is understood that Tilden will take passage on the Cunard steamer Scythia, to sail for Europe on the 18th of July, and it may be safely inferred therefore, that he agrees with a great majority of Democrats throughout the United States in thinking that it is hardly worth while to waste much energy in making an *ex post facto* war even on the *de facto* President.

Information is wanted of Thomas Prentice, a native of Lancashire, Scotland, who left Oshawa, Canada, about nine years ago; when last heard from was near San Francisco. Any information respecting his whereabouts (dead or alive) will be thankfully received by his mother, Mrs. James Prentice, Oshawa, Dominion of Canada.

The largest woman in the world, Mrs. Ruth Beaton, alias Fanny Wallace, died at her residence in Vernon county, Wisconsin, on Friday last. She was fifty-four years old, seven feet four inches in height, and weighed 585. Her coffin was seven feet eight inches in length, three feet six inches in depth, four feet wide at the centre, twenty-four inches at the head, and twenty-three inches at the foot. it required eight men with block and tackle to lower the remains into the grave.

The loss by the St. Johns fire is still estimated at $20,000,000, and the insurance, so far as known, is about $8,000,000. The following is a list of the total risks held by insurance companies within the bounds of the burned section of the city: Imperial of London, $210,000; Commercial Union, $300,000; Ætna, $22,000; Lancashire, $500,000; Hartford, $200,000; Phœnix of Brooklyn, $60,000; British American, $22,000; Royal Insurance, $650,000; Stadacome, $300,000; Queen, $500,000; Guardian, $400,000; North British and Mercantile, $60,000.

Twelve States will hold elections during the present year, to wit: Kentucky, August 6; Vermont, September 4; California, September 5; Maine, September 10; Iowa and Ohio, October 9; Massachusetts, Mississippi, Pennsylvania, New York, Virginia and Wisconsin, November 6. In four of these State Legislatures are to be chosen, which will furnish successors to a like number of United States Senators whose terms expire in March 1879, viz: Kentucky, New York, Ohio and California.

1,000,000 Bottles
OF THE
Centaur Liniments!

have been sold the last year, and not one complaint has reached us that they have not done all that is claimed for them. Indeed, scientific skill cannot go beyond the result reached in these wonderful preparations. Added to Carbolic, Arnica, Mentha, Seneca, Oil and Witch Hazel, are other ingredients, which makes a family liniment that defies rivalry. Rheumatic and bed ridden cripples have by it been enabled to throw away their crutches, and many who for years have been afflicted with Neuralgia, Sciatica, Caked Breasts, Weak Backs, etc., have found permanent relief.

Mr. Josiah Westlake, of Marysville, O., writes:

"For years my Rheumatism has been so bad that I have been unable to stir from the house. I have tried every remedy I could hear of. Finally, I learned of the Centaur Liniment. The first three bottles enabled me to walk without my crutches. I am mending rapidly. I think your Liniment simply a marvel."

This Liniment cures Burns and Scalds without a scar, extracts the poison from bites and stings, Cures Chilblains and Frosted-feet, and is very efficacious for Ear-ache, Toothache, Itch and Cutaneous Eruptions.

The Centaur Liniment, Yellow Wrapper, is intended for the tough fibres, cords and muscles of horses, mules and animals.

READ! READ!

Rev. Geo. W. Ferris, Manorkill, Schoharie Co., N. Y., says:

"My horse was lame for a year with a fetlock wrench. All remedies utterly failed to cure and I considered him worthless until I commenced to use Centaur Liniment, which rapidly cured him. I heartily recommend it. It makes very little difference whether the case be "wrench," spavin, spavin or lameness of any kind, the effects are the same. The great power of the Liniment is, however, shown in Poll-evil, Big-head, Sweeny, Spavin, Ring-bone, Galls and Scratches. This Liniment is worth millions of dollars yearly to the stock-growers, Livery-men, Farmers, and those having valuable animals to care for. We warrant its effects and refer to any Farrier who has ever used it.

Children.

A complete substitute for Castor Oil, without its unpleasant taste or recoil in the throat. The result of 20 years' practice by Dr. Samuel Pitcher, of Massachusetts.

Pitcher's Castoria is particularly recommended for children. It destroys worms, assimilates the food, and gives natural sleep. Very efficacious in Croup and for children Teething. For Colds, Feverishness, Disorders of the Bowels, and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON Co., PA., "March 17, 1874.

"*Dear Sir:*—I have used your CASTORIA in my practice for some time. I take great pleasure in *recommending it to the profession* as a safe, reliable and agreeable medicine. It is particularly *adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer. E. A. ENDERS, M.D."

Mothers who try Castoria will find that they can sleep nights and that their babies will be healthy.

MARK THESE FACTS.

The Testimony of the Whole World.

HOLLOWAY'S PILLS.

"I had no appetite; Holloway's Pills gave me a hearty one."

"Your Pills are marvellous."

"I send for another box, and keep them in the house."

"Dr. Holloway has cured my headache that was chronic."

"I gave one of your Pills to my babe for cholera morbus. The dear little thing got well in a day."

"My nausea of a morning is now cured."

"Your box of Holloway's Ointment cured me of noises in the head. I rubbed some of your Ointment behind the ears, and the noise has left."

"Send me five boxes of your Pills."

"Let me have three boxes of your Pills by return mail, for Chills and Fever."

I have over 200 such testimonials as these, but want of space compells me to conclude.

For Cutaneous Disorders,

And all eruptions of the skin, this Ointment is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very roots of the evil.

HOLLOWAY'S PILLS

Invariably cure the following diseases

Disorder of the Kidneys.

In all diseases affecting these organs, whether they secrete too much or too little water, or whether they be afflicted with stone or gravel or with aches and pains settled in the loins over the regions of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bedtime. This treatment will give almost immediate relief when all other means have failed.

For Stomach's Out of Order.

No medicine will so effectually improve the tone of the stomach as these pills; they remove all acidity occasioned either by intemperance or improper diet. They reach the liver and reduce it to a healthy action; they are wonderfully efficacious in cases of spasm, in fact they never fail in curing all disorders of the liver and stomach.

HOLLOWAY'S PILLS are the best known in the world for the following diseases: Ague, Asthma, Bilious Complaints, Blotches on the Skin, Bowels, Consumption, Debility, Dropsy, Dysentery, Erysipelas, Female Irregularities, Fevers of all Kinds, Fits, Gout, Headache, Indigestion, Inflammation, Jaundice, Lumbago, Liver Complaints, Piles, Rheumatism, Retention of Urine; Scrofula or King's Evil, Sore Throat, Stone and Gravel, Tic doloroux, Tumors, Ulcers, Worms of all kinds, Weakness from any cause, etc.

IMPORTANT CAUTION.

None are genuine unless the signature of J. HAYDOCK, as agent for the United States, surrounds each box of Pills and Ointment. A handsome reward will be given to anyone rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

☞ Sold at the manufactory of Prof. HOLLOWAY & Co., New York, and by all respectable druggists and dealers in medicine throughout the civilized world, in boxes at 25 cents, 62 cents and $1 each.

☞ There is considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each box.
